## our Passion, your Health

When it was founded in 1904 under the name of Clinique Mon Repos, the health centre set itself the task of concentrating the most advanced human resources and techniques in order to take care of and improve the health of its patients.

*"Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity."*

Le Mirador Health Centre offers a perfect symbiosis of modern Western medicine and the latest research and technology in preventive and integrative medicine based on decades of medical experience and a century serving the Geneva Lake region.

LE MIRADOR  
HEALTH CENTRE

*"Well-being is the harmony of our strong interior; enhanced well-being is a sustainable improvement of our well-being."*

*«Happiness comes from within, not from outside: it depends not on what you have, but on what you are.»*

## A Philosophy Based on Balance

Adopting a personalised holistic approach, we seek to achieve harmony of the body and mind by fully restoring the inner strength naturally present in the body. Our programmes aimed at stimulating the metabolism offer the very best, whether you wish to regain a sense of general well-being, feel invigorated, get into shape or slow down the effects of time for the sole purpose of living better and for as long as possible.

At Le Mirador Health & Wellness Centre, we believe that health is all about balance. Enjoying good health means maintaining stability on all levels: physiological, mental, emotional and energetic.

Our holistic approach focuses on restoring inner balance by sending a self-healing message to the body's various biological mechanisms: in so doing, we can help you achieve harmony between body and mind.
